ABOUT US

Welcome to Genoa Sales LLP, one of the leading brands in India offering a diverse range of Antiscratch Acrylic Laminates. With a steadfast commitment to quality and innovation, we bring you an extensive selection of laminates to enhance both the aesthetics and durability of your spaces.

At Genoa Sales, we take pride in our wide range of products, including our flagship ACRYNOVA collection of High Gloss Acrylic Laminates. This collection showcases a stunning array of finishes, such as Solid, Metallic, Marble, Veneer, and Stone, providing endless possibilities to create exquisite interiors that leave a lasting impression.

In addition to our ACRYNOVA collection, we also offer the ACRYSOFT range of Matt Acrylic Laminates in vibrant Solid colors. These laminates combine elegance with practicality, delivering a smooth, matte finish that is both visually appealing and highly resistant to scratches.

Complementing our range of laminates, we proudly introduce:-

D-box Solid Color PVC Laminates: Crafted with precision, these laminates feature a wide spectrum of solid colors that add a touch of sophistication to any surface, whether it be furniture, cabinets, or walls.

Manore PS-Based Wall Paneling: Designed to enhance the aesthetic appeal of your interiors, these panels provide moisture resistance and ease of installation, making them an excellent choice for both residential and commercial spaces.

Additionally, we are excited to introduce our latest innovation—GENASA premium polymer laminates. Available in both Matt and Glossy finishes, these 1mm thick, full-core laminates come with matching edge bands to ensure seamless design continuity. GENASA is engineered to provide superior quality and aesthetic appeal for high-end furniture and interiors, making it the perfect choice for luxury spaces.

At Genoa Sales LLP, we are committed to delivering exceptional products that meet the diverse needs and tastes of our valued customers. Our laminates and paneling solutions are meticulously crafted using advanced manufacturing techniques and high-quality materials to ensure unmatched durability, longevity, and performance.

Experience the Genoa Sales difference as you explore our extensive range of Antiscratch Acrylic Laminates, including the ACRYNOVA and ACRYSOFT collections, D-box Solid Color PVC Laminates, Manore PS-based wall paneling, the newly launched Devina 6mm Wall Paneling, and the high-end GENASA premium polymer laminates. Let us be your partner in creating inspiring spaces that reflect your unique style and vision.

To avoid the formation of air bubbles when using a laminate sheet to decorate plywood, follow these steps:

1. Prepare the Surface: Ensure that the plywood surface is clean, dry, and free from any dust or debris. Sand down any irregularities or rough spots to create a smooth surface.
2. Measure and Cut the Laminate Sheet: Measure the dimensions of the plywood and cut the laminate sheet slightly larger than the size of the plywood. This extra allowance will allow you to trim the edges later.
3. Apply Adhesive: Use 'GENBond' adhesive. Apply an, even layer of adhesive to the plywood surface using a paint roller or brush, following the manufacturer's instructions.
4. Position the Laminate Sheet: Carefully place the laminate sheet onto the plywood, aligning it properly. Start by positioning one edge and gradually press down the rest of the sheet, smoothing it out as you go. Use a laminate roller or a clean, smooth cloth to remove any air bubbles by pressing firmly from the centre outward.
5. Apply Pressure and Allow Curing Time: After trimming, apply pressure on the laminate sheet using clamps/Abro Tape or heavy objects placed evenly across the surface. Maintain this pressure for at least 48 hours to allow the adhesive to fully cure and create a strong bond between the laminate and the plywood.
6. Trim the Edges: Once the laminate sheet is in place and free from air bubbles, allow the adhesive to dry according to the manufacturer's instructions. Then, use a laminate trimmer or a sharp utility knife to carefully trim the excess laminate from the edges of the plywood, following the shape of the plywood.

By following these steps, using the recommended 'GENBond' adhesive, applying pressure, and allowing for sufficient curing time, you can minimize air bubble formation and achieve a smooth, professional-looking laminate finish on your plywood.

Please note: Genoa Acrylic laminates do not take any responsibility for air bubble formation during the application process.

Formation of Air Bubbles is strictly an application issue and beyond the scope of manufacturing faults.

DO & DONT’S

1. Store the laminate in a cool and dry place.
2. Do not use Fast acting glue like HEATX on acrylic laminates as they can cause color changes.
3. Do not use hard reactive cleaners like alcohol, solvent, acetone, petrol, pinewood, or oil. These will damage the surface of the acrylic.
4. please use a soft microfiber cloth for cleaning.
5. Do not place HOT items near the surface of the Acrylic. As the sheet is flammable and can easily melt. Acrylic laminates are not Fire-resistant.

DO NOT KEEP ACRYLIC IN ROLL FORM AT THE SITE. CRACKS WILL EMERGE WHEN ACRYLIC LAMINATES ARE KEPT IN ROLL FORM FOR OVER 24 HOURS. PLEASE CHECK THE SHEETS RIGHT AFTER RECEIVING AND OPEN THE ROLL. GENOA DOES NOT ACCEPT RETURNS FOR CRACKING OF ACRYLIC LAMINATES AFTER 24 HOURS OF DELIVERY

LIMITED WARRANTY:

Genoa products are reasonably free of defects and when properly handled and fabricated will comply, within reasonable deviations to applicable manufacturing specifications. Clients are advised to inspect product thoroughly prior to installation. Genoa warranty will not cover defects and non-compliance from otherwise attributable to any other causes, including without limitation:

• Improper handling / transportation / storage of the products • Improper installation and unintended usage of the products • Lack of / or improper maintenance of the products • Exposure of the products to extreme temperatures • Unauthorized alteration to the products • Outdoor applications.

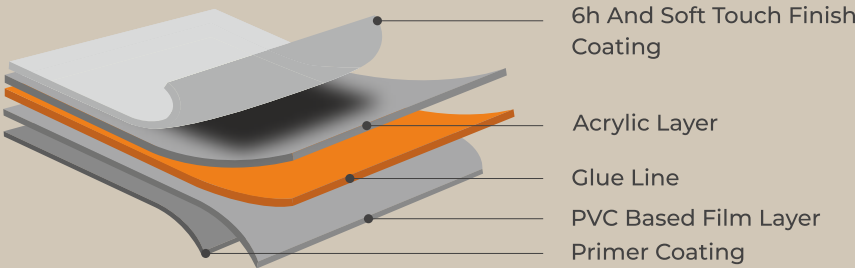

• No guarantee and no exchange in any circumstances • There can be colour variation in material from different batches. It is advised to use same batch material to avoid colour variations • Actual colour of the acrylic sheet may vary from this brochure.
